

NAH NAH NAH

From the album *The Time Has Come*

What can I do, what can I say?
I had to go and change my dream today
I'm not sorry, I just move with the changes as I move
You know, my body winds up dancing
How can you tell, how can you know?
In one lifetime such a long way to go
There are times I have to get out and push myself along
But every day's a little lighter
Every day's a little bit brighter
And I'm a-singing:

CHORUS:

NAH NAH NAH NAH NAH
HEY HEY HEY HEY HEY (2X)

What can I do, what can I say?
I said goodbye to my friend, my lover today
I'm not sorry I will know another friend it's true
But there is something special about her
It's easy she once said to me
Heal your body let your dreams run free
I'm still running you know
I still push myself along
Every day's a little lighter
Every day's a little bit brighter

CHORUS

What can I do what can I say
I had to go and change my life today
I'm not sorry I just move with the changes
As I move my body winds up dancing
Somehow I always wind up dancing
And singing:

CHORUS
