The steam begins to rise  
It slowly effervesces  
Leaves are crinkling  
Under sweet caresses

I cherish this moment of natural bliss  
Nothing is missing  
When I'm pissin' outside  
Pissin' outside  
You don't know what you're missin'  
Till you start pissin' outside

Pissin' outside  
Pissin' outside  
You don't know what you're missin'  
Till you start pissin' outside

You know a rock, a bush, a shrubbery, a tree  
You can go anywhere you please  
There are so many things that you can christen  
So make it like your mission and just start

Pissin' outside  
Pissin' outside  
You don't know what you're missin'  
Till you start pissin' outside

You know my favorite place is in the virgin snow  
You find a fresh canvas and let it flow  
Sign your name and watch it glisten  
Unless you're in Alaska  
Then your task is to go faster  
Cause it freezes and you have to walk backwards while you're

Pissin' outside  
Pissin' outside

You don't know what you're missin'  
Till you start pissin' outside

Pissin' outside  
Pissin' outside  
You don't know what you're missin'  
Till you start pissin' outside

Because the grass is always greener  
When you water with your wiener outside
