

THE WHEEL SONG

From the album *The Time Has Come*

© 1993 by Bill Melanson & Billy Jonas (Bang-A-Bucket Music/BMI)

I found a wheel that came from an old wagon
Lying in a field behind my neighbor's barn
I took that wheel and fixed where it had rotted
I painted it bright colors
You ought to see how it shines

CHORUS:

Isn't it amazing what a little bit of glue can do
What you can fix with a nail or two
Taking your time, doing it right
Make sure everything fits real tight
Little bit of wire, little bit of rope
Wrap it up with a little bit of hope, oh yeah!

I found a house in the middle of the city
It was anything but pretty
About to come tumbling down
I took that house and fixed where it had rotted
Painted it bright colors and the house became a home

CHORUS

BRIDGE:

Resurrected, reconnected, elevated, recreated
The celebration of the rejuvenation, OH YEAH!
I'm not saying everything can be saved
Just take a good look before you throw it away

You found my heart, it was torn and tattered
Worn and shattered
About to come tumbling down
You took my heart, gave it what it needed
Helped to stop the bleeding
Turned my world around

Isn't it amazing what a little bit of love can do
What you can fix with a kiss or two
Take your time getting it right
Make sure you hug me really tight
You said the kindest words
That I have ever heard, oh yeah, oh yeah
